SUMMARY

Full Stack Developer (Java/Spring Boot + MERN) with hands-on experience building responsive and scalable web applications through internships and personal projects. Proficient in Java, Spring Boot, React.js, Node.js, Express.js, MongoDB, MySQL, and PostgreSQL, with experience in developing end-to-end applications from database design to deployment-ready user interfaces. Skilled in designing and consuming RESTful APIs, implementing secure authentication using Spring Security and JWT, and building responsive, user-friendly interfaces with modern React practices. Familiar with Git/GitHub, MVC architecture, database optimization, and writing clean, maintainable, and reusable code following software development best practices. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, Core Java, and Agile development, with a passion for continuous learning, problem-solving, and building efficient, scalable software solutions.

PROFFESIONAL EXPERIENCE

- Intern - OctaNet TechnologiesOct 2023 – Dec 2023 (Remote)
 - Designed and developed end-to-end full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Built responsive user interfaces, developed scalable RESTful APIs, and integrated efficient database solutions while following clean coding practices to deliver secure, maintainable, and high-performance web applications.
- Software Engineer
Intern - YugaYatra Retail (OPC) Private LtdDec 2025 – Feb 2026 (Remote)
 - Utilized Git for version control and collaborated in an Agile development environment, contributing to sprint planning, code reviews, and iterative feature development. Leveraged AI-assisted development tools, including Cursor AI, to improve development efficiency while maintaining clean, maintainable, and well-structured code following industry best practices.

SKILLS

Programming Languages: Java, C++, C, JavaScript
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, Spring Boot, Hibernate
Databases: MongoDB, MySQL, PostgreSQL
Tools & Technologies: Git & GitHub, Postman, Maven, VS Code, IntelliJ IDEA, Cursor AI
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, RESTful APIs, Microservices
Soft Skills: Problem-Solving, Team Collaboration, Agile Methodologies, Effective Communication

PROJECTS

- E-CommerceWeb Platform | React.js, Node.js, Express, MongoDB
 - Designed and developed a full-stack e-commerce application using the MERN stack with features including product catalog, category-based filtering, shopping cart, secure user authentication, and order management.
 - Implemented JWT-based authentication and integrated Razorpay/Stripe payment gateway for secure checkout and payment processing.
 - Built a responsive admin dashboard for inventory management, order tracking, and sales analytics.
 - Developed RESTful APIs for seamless communication between the frontend and backend and optimized database queries to improve application performance.
- Online Banking System | Spring Boot, Hibernate, MySQL, React.js
 - Developed a secure banking application using Spring Boot and React.js with user authentication and role-based authorization using Spring Security.
 - Designed a normalized MySQL database schema and implemented Hibernate/JPA for efficient data persistence.
 - Built RESTful APIs for account management, fund transfers, and transaction history while ensuring secure communication between the client and server.
 - Developed responsive frontend components and integrated backend services to provide a smooth user experience.
- Task Management REST API | Spring Boot, MySQL, Postman
 - Developed a Task Management REST API using Spring Boot, Spring Data JPA, and MySQL with CRUD operations and RESTful design principles.
 - Implemented task filtering, sorting, and deadline management while testing and documenting APIs with Postman.

EDUCATION

- Parul University | 2022 – 2026
 - BachelorOf Technology InComputer Science
 - Engineering CGPA: 7.12
- Sri Chaitanya Junior College | 2020 – 2022
 - Intermediate (MPC)
 - GPA: 96%
- Krishnaveni Residential High School | 2016 - 2020
 - High School
 - GPA: 93%

CERTIFICATIONS

- Software Developer Internship | Yuga Yatra Retail (OPC) Private Limited
 - Successfully completed a Software Developer Internship focused on developing scalable web applications using modern Java and MERN technologies.
- Insight Explorer Intern | The Lead Market
 - Performed market research, data analysis, and business reporting to identify trends and support strategic business decisions.
- Web Development Internship | OctaNet Technologies
 - Strengthened frontend development skills by building responsive web interfaces and integrating RESTful APIs using modern web technologies.
