SUMMARY

Frontend Engineer with hands-on experience building responsive and scalable web applications through internships and personal projects. Proficient in React.js, JavaScript, HTML5, CSS3, Tailwind CSS, React Router, and modern frontend technologies, with experience in developing reusable components and production-ready user interfaces. Skilled in building responsive web applications, integrating RESTful APIs, implementing authentication flows, managing application state, and creating interactive user experiences using modern React practices. Familiar with Git/GitHub, component-based architecture, responsive design, performance optimization, accessibility, and writing clean, maintainable, and reusable code following frontend development best practices. Strong foundation in Data Structures & Algorithms, JavaScript, Object-Oriented Programming, web development fundamentals, and Agile development, with a passion for continuous learning, problem-solving, and building efficient, scalable, and user-focused digital experiences.

PROFFESIONAL EXPERIENCE

- Intern - OctaNet Technologies

Oct 2023 – Dec 2023 (Remote)

 - Designed and developed responsive web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Built reusable UI components, integrated RESTful APIs, implemented responsive layouts and interactive features, and optimized frontend performance while following clean coding practices to deliver scalable, maintainable, and user-friendly web applications.
- Software Engineer

Dec 2025 – Feb 2026 (Remote)

Intern - YugaYatra Retail (OPC) Private Ltd

 - Utilized Git/GitHub for version control and collaborated in an Agile development environment, contributing to sprint planning, code reviews, and iterative frontend development. Leveraged AI-assisted development tools, including Cursor AI, to improve development efficiency while maintaining clean, reusable, and well-structured React.js code following modern frontend engineering practices.

SKILLS

Programming Languages: JavaScript, Java, C++, C

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, Hibernate

Databases: MongoDB, MySQL, PostgreSQL

Tools & Technologies: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Maven, Cursor AI

Core Concepts: Responsive Web Design, Component-Based Architecture, RESTful APIs, State Management, Web Accessibility, Performance Optimization

Soft Skills: Problem-Solving, Team Collaboration, Effective Communication, Agile Methodologies

PROJECTS

- E-Commerce Web Platform | React.js, JavaScript, Tailwind CSS, HTML5, CSS3

 - Designed and developed a responsive e-commerce web application using React.js, JavaScript, and Tailwind CSS with product browsing, category filtering, shopping cart, authentication, and order management features.
 - Built reusable React components and responsive user interfaces with modern UI/UX practices for seamless desktop and mobile experiences.
 - Integrated RESTful APIs for product, user, cart, and order data, enabling efficient frontend-backend communication and dynamic application functionality.
 - Developed a responsive admin dashboard for inventory management, order tracking, and sales analytics while optimizing component structure and frontend performance.
- Flight Booking System | React.js, JavaScript, Tailwind CSS, Node.js

 - Developed a responsive flight booking web application using React.js, JavaScript, and Tailwind CSS with flight search, filtering, booking, and user-friendly navigation features.
 - Built reusable React components and interactive interfaces to deliver a seamless booking experience across desktop and mobile devices.
 - Integrated RESTful APIs for flight data, search results, user authentication, and booking workflows with efficient frontend-backend communication.
 - Optimized UI components, responsive layouts, and application performance while following clean and maintainable frontend development practices.
- Blinkit Clone | React.js, JavaScript, Tailwind CSS, HTML5, CSS3

 - Developed a responsive grocery shopping application using React.js, JavaScript, and Tailwind CSS with product browsing, category filtering, search, cart, and checkout functionality.
 - Implemented reusable React components, responsive layouts, and interactive UI features while delivering a seamless and user-friendly shopping experience across devices.

EDUCATION

- Parul University | 2022 – 2026

BachelorOf Technology InComputer Science

Engineering CGPA: 7.12
- Sri Chaitanya Junior College | 2020 – 2022

Intermediate (MPC)

GPA: 9.6
- Krishnaveni Residential High School | 2016 - 2020

High School

GPA: 9.3

CERTIFICATIONS

- Software Developer Internship | Yuga Yatra Retail (OPC) Private Limited

 - Successfully completed a Software Developer Internship focused on building responsive and scalable web applications using React.js, JavaScript, and modern frontend development technologies.
- Web Development Internship | OctaNet Technologies

 - Strengthened frontend development skills by building responsive web interfaces, reusable React components, and integrating RESTful APIs using modern frontend technologies.
